

6.3.3 Free Drinking Water Facilities at the University

SPIHER provides **free and safe drinking water** for all students, staff, and visitors across the campus. Drinking water units and purified water dispensers are installed in all major buildings, including academic blocks, administrative offices, laboratories, hostels, libraries, and common areas. These units ensure easy access to clean and hygienic drinking water at all times.

The university regularly maintains and services these water purification systems to ensure safety and quality. Filters, RO units, and storage tanks are cleaned and monitored periodically by trained maintenance staff. Clear signage is placed near water points so that students and visitors can easily locate them.

By offering free drinking water in multiple locations, the university ensures convenience, promotes good health, and supports a comfortable campus experience for everyone.

Campus Initiative: Free Drinking Water for All Students and Faculty in all the blocks

Conclusion:

In conclusion, SPIHER's commitment to providing free and safe drinking water across the campus reflects its dedication to the health, comfort, and well-being of every student, staff member, and visitor. By installing purified drinking water units in all important locations—such as academic buildings, labs, hostels, offices, the library, and common areas—the institution ensures that clean water is always accessible and easy to find. These facilities are not only convenient but also essential in supporting a healthy learning environment.

To maintain the highest standards of water quality, SPIHER follows a routine maintenance schedule for all purification systems. This includes regular cleaning of RO units, filters, and storage tanks, along with continuous monitoring by trained technical staff. Such careful upkeep ensures that the water provided remains hygienic, safe, and reliable at all times. Clear signage around drinking water points also helps students and visitors access water effortlessly whenever needed.

Overall, by offering free, purified drinking water throughout the campus, SPIHER demonstrates its strong commitment to student welfare, environmental responsibility, and campus hospitality. This initiative not only promotes good health but also creates a supportive and comfortable atmosphere where everyone can focus on their academic and personal growth.
