(Deemed to be University U/S 3 of the UGC Act, 1956)  
AVADI, Chennai – 600 054, Tamil Nadu, India.**

### **Technology Transfer Cell (TTC)**

To foster a culture of innovation and to ensure that intellectual property generated within the institution is effectively utilized, a Committee for the Commercialization of Granted Patents has been constituted. This committee is entrusted with the responsibility of formulating strategies, guiding implementation, and overseeing activities related to the successful translation of research outcomes into practical applications. In order to further strengthen this initiative, a Technology Transfer Cell (TTC) is being established as a dedicated platform to act as a bridge between patent holders and industry stakeholders. The TTC will play a pivotal role in facilitating collaborations, promoting knowledge sharing, and creating pathways for the accelerated commercialization of intellectual property. By serving as a catalyst for innovation-driven partnerships, this initiative aims to unlock the full potential of the institution's intellectual assets, thereby contributing significantly to academic excellence, technological advancement, and broader economic development. The following members have been nominated for the committee:

### **Committee Members**

- |   |   |                 |
|---|---|-----------------|
| 1. Dr. N. Malmurugan, Vice-Chancellor   | - | Chairman        |
