**Review Committee for verification and scrutiny of  
research publications, research projects and scientific event  
proposals**

In order to ensure the consistent quality, originality and impactful contribution of the research and academic activities of the Institution, it has been made mandatory that all research articles undergo plagiarism screening and format verification prior to their submission to peer-reviewed journals. Similarly, all major and minor research project proposals submitted to funding agencies, as well as proposals seeking partial financial assistance for organizing conferences, seminars, workshops, symposia and other academic events, shall mandatorily undergo a comprehensive review process.

The Review Committee shall critically evaluate the originality, quality, relevance, feasibility and compliance of such submissions with the prescribed institutional standards, thereby enhancing the academic credibility and reputation of the Institution. Henceforth, no proposal or manuscript shall be forwarded without the recommendation and approval of the Review Committee.
